

Danilo Vicentin da Silva

Web Developer

About

Web Developer

Web Front End Developer focused on providing the best web solutions! Always using the best techniques and technologies on the market, my workflow is fast and focused, I seek to understand the objectives and needs of the client/company in order to ensure that the website is 100% faithful to its idea. I am able to develop every part of the frontend, from the prototype to the completion of the user interface
